Web Development

Generative AI Developer

Pakistan Bureau of Statistics · Internship

Jul 2025 - Aug 2025 · 2 mos

Islāmābād, Pakistan · On-site

Worked on developing a Natural Language to SQL Assistant using Azure GPT-4.1, LangGraph, and LangSmith to enable plain English queries on SQL Server databases. Built and optimized the backend with Node.js, TypeScript, and Next.js, including features like CSV/Excel export, HTML table rendering, and basic visualizations. Gained hands-on experience in Generative AI workflows, prompt engineering, and database integration.

Education

Air University

2023 – 2027

Military College Jhelum Sarai Alamgir

Intermediate , Pre-Engineering

Jul 2018 – Jul 2020

Grade: A

Military College Jhelum Sarai Alamgir

Matriculation , Science

Jul 2016 – Jul 2018

Grade: A

Activities and societies: House Appointee (High School): Undertook the responsibility of overseeing junior students, maintaining discipline, and guiding them in academics, sports, and co-curricular activities. Basket House Team Member (High School): Actively participated in the school's Basket House team, contributing to the team's success and promoting a spirit of sportsmanship. Academic Achievements: Secured the second position in the college's 9th annual examination, demonstrating a commitment to academic excellence.

As a former House Appointee during my high school years, I assumed a leadership role where I was entrusted with the responsibility of overseeing and mentoring junior students. My duties included maintaining discipline, providing academic guidance, and actively participating in various activities, including sports and co-curricular pursuits. I was also a dedicated member of the school's Basket House team, contributing to the team's collaborative efforts and fostering a spirit of sportsmanship. Additionally, I achieved academic success by securing the second position in my college's 9th annual examination, highlighting my commitment to excellence in my studies. My experience as a House Appointee has equipped me with strong leadership, mentorship, and communication skills. I am passionate about contributing positively to any team or community, and I bring a well-rounded approach to both academic and extracurricular endeavors.

Skills: Amazon Web Services (AWS)

AWS AI Practitioner Challenge I'm currently building a strong foundation in AI/ML through the AWS AI Practitioner Challenge. The program covers core AI/ML concepts, generative AI, real-world use cases, and hands-on exploration of AWS AI/ML services. It's helping me understand how to select and apply the right AI solutions using AWS tools.
