SUMMARY

Aspiring AI & ML Developer currently pursuing a BS in Artificial Intelligence at Air University, Islamabad. Experienced in building Generative AI applications, LLM pipelines, and interactive data-driven tools. Skilled in Python, LangChain, LangGraph, and Azure-based AI services. Passionate about solving real-world problems with cutting-edge AI

CERTIFICATES

Deloitte Australia – Technology Job Simulation

Forage

Python for Data Science, AI & Development

IBM Coursera

AI For Everyone

DEEPLARNING.AI Coursera

Machine Learning Specialization

DEEPLARNING.AI Stanford Online

Github CoPilot for Beginners: Write Software With AI

Deloitte Australia – Cyber Job Simulation

Forage

WORK EXPERIENCE

Pakistan Bureau of Statistics

Intern – Generative AI Developer Onsite

July 2025 – August 2025

- Developed a Natural Language to SQL Assistant using Azure GPT-4.1, LangGraph, and SQL Server, enabling plain English queries for database access.
- Added features such as CSV/Excel export, HTML table rendering, and basic data visualizations.
- Integrated LangSmith for observability, tracing, and performance monitoring.

Digital Empowerment Network

Intern Web Developer Remote

ML Developer & Student Projects

- Engineered a memory-optimized medical computer vision pipeline to segment pediatric brain tumors across a 32.7GB multiparametric MRI dataset.
Achieved 80% classification accuracy using handcrafted radiomics (GLCM/SVM) and implemented a 3D Vision Transformer (UNETR), reaching a 0.4608 validation Mean Dice Score for automated volumetric subregion mapping.
- Developed a Context-Aware Movie Search Engine using Elasticsearch, session tracking, and query rewriting.
- Built a Diabetes Prediction System with Genetic Algorithms for feature selection and interactive dashboards via Streamlit.
- Gained practical experience in data preprocessing, Python scripting, and collaborative GitHub workflows.

EDUCATION

Air University, Islamabad
Bachelor of Science in Artificial Intelligence
Graduation: 2027

Military College Jhelum Sarai Alamgir
Intermediate, Pre-Engineering (2018–2020)
Matriculation, Science (2016–2018)

SKILLS

- Programming: Python
- Frameworks & Tools: LangChain, LangGraph, Streamlit
- AI & Machine Learning
- Dev Tools: Git, Docker (Basic), GitHub Copilot, Azure (Basic),
- Soft Skills: Problem Solving, Collaboration, Communication, Adaptability

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Pushto (Native)
